

I would like to thank you in advance for allowing me to introduce my company and myself. My name is Mark Copithorne and my Company is CEL Quality Services Ltd. CEL Quality Services Ltd. would like to be your first call, for any pressure equipment concerns and ABSA requests.

CEL Quality Services offers inspection services of in-service boiler and pressure vessels, API 653 above ground storage tank inspections, installation inspections, facility assessments, data management, turnaround planning, failure analysis, used equipment assessments, shop inspection of repairs, Chief Inspector services, coordinating repairs and certification of routine repairs to pressure vessels.

CEL Quality Services Ltd holds Certificate of Authorization Permit AQP-9029 issued by ABSA to perform integrity assessments of pressure equipment in the province of Alberta. Only experienced, trained and certified inspection personnel are used for all inspection activities. Mark Copithorne is the primary inspector and can provide additional skilled support when required.

CEL Quality Services Ltd has been in operation since 1999, with hands on experience and involvement with fabrication, commissioning of facilities, operations, vessel repairs and day to day management of Integrity Management Programs. Mark Copithorne has 27 years experience in operations and inspection in the oil and gas industry.

CEL Quality Services Ltd is located at 4814-49th Street in Rocky Mountain House Alberta and offers a wide range of product support, which can be tailored to your needs in any area of Western Canada.

CEL Quality Services Ltd is committed to customer satisfaction and its main objective is to provide you with proficient and accurate inspection data with economical value.

If you have any questions or require further information please do not hesitate to contact CEL Quality Services Ltd.

Yours truly,

Mark Copithorne
President
